

GREATER OMAHA ECONOMIC INDICATORS

10 2020

HIGHLIGHTS

Greater Omaha is continuing to see the effects of the coronavirus on the economy, but we are beginning to see some improvements compared to April. April has been our reference point for economic recovery since it was the first full month of restrictions and temporary business closings. The unemployment rate fell from 9.9% in April 2020 to 3.0% in October 2020, which is above Nebraska's (2.7%) but below the U.S. (6.6%). Although the unemployment rate is low, there was a decrease in the labor force (-0.4%) from September to October this year. Greater Omaha has seen an increase of approximately 33,300 net jobs compared to April. The industries that have seen the largest increase are Leisure and Hospitality (38.2%), Education and Health Services (10.6%) and Trade, Transportation and Utilities (7.5%). Eppley had 90,800 passenger enplanements in October 2020, up from 8,700 in April.

COVID-19

As we continue to monitor the effects of the coronavirus on the Omaha metro, we are tracking the initial and continued unemployment insurance claims as a leading indicator. The most recent week, ending on November 21, saw over 1,400 initial claims and almost 11,700 continued claims.
